

Hiring Doc

Position: Developer

Groove Jones, a world-renowned and award-winning studio specializing in Augmented Reality, Virtual Reality and Interactive Entertainment technologies, is currently seeking a person to take on the role as Application Developer.

You will get to experience the latest cutting-edge technologies and working with exciting clients.

Qualifications

- 3+ years in Unity, Unreal or iOS native development
- Strong C#, C++, Objective C/Swift capabilities
- Experience with deployment to mobile devices
- Experience with optimization for mobile devices
- Mid to senior level development experience with at least 3-5 years' experience at an Interactive shop, agency or game studio.
- Bonus extras: Python, .Net Core, Javascript and general backend experience
- The position requires a dynamic person that thrives in a fast-paced environment.
- The ideal candidate would have an excellent understanding of mobile, digital and interactive space.

Duties and Responsibilities

- Help create VR and AR interactive experiences for HMD's, iOS devices, and Android devices
- Take creative concepts and design software solutions for them
- Utilize a wide variety of programming languages, platforms, frameworks and APIs
- Learn new software applications as new technologies arise (Spark AR, Lens Studio, etc.)

Applicants should submit their resume with links to 3 examples of published work available for view either online or interactive projects through the Apple Store, Google Play, Steam, or Oculus Store. Resumes should be sent to whois@groovejones.com.

About Groove Jones

Groove Jones is an award-winning creative technology company that provides software solutions to advertising, entertainment, marketing, health, and training companies to engage with their audiences. It has a client list of numerous Fortune 500 companies like Amazon, AT&T, Comcast, FX, HP, IBM, Intel, Mastercard, McDonald's, Nestle, Samsung, and Under Armour.

We are artists, musicians, thinkers, creators, tinkerers, technologists, gamers, strategists, innovators, rebels, developers and most of all, digital fanboys (and fangirls) with a common interest: consistently delivering amazing, effective work for amazing clients. We love what we do.
