Position: Houdini Artist

Groove Jones, a world-renowned and award-winning studio specializing in Augmented Reality, Virtual Reality and Interactive Entertainment technologies, is currently seeking a person to take on the role as Houdini artist.

This person has mastered Houdini software. They can handle a wide range of procedurally driven animations including but not limited to fluid sims, particle sims and crowd sims.

The right candidate should enjoy working in a collaborative environment, they should be organized and have an eye for detail. They should also have an insatiable appetite to research, learn and test their knowledge and skills to build things that haven't been done before!

This is a full-time contract position located in Dallas, Texas.

Qualifications

- The ideal candidate would have at least a bachelor's degree in Fine Art, Animation, Video Game Development or Related Field, but prior experience may qualify someone.
- The candidate must have at least 2-3 year's experience at an Interactive shop, agency or game studio.
- Candidate should have an intimate knowledge of Houdini solvers (rop, pop, and dop).
- The position requires a dynamic person that thrives in a fast-paced environment and is extremely organized.
- The ideal candidate would have experience working on a large animation production.

Duties and Responsibilities

- Produce effects based on concept art and story boards and integrate them with the geometry from the modeling department.
- Ensure that the generated effect works for lighting and set dressing departments of the pipeline.
- Work with VFX supervisor and creative director to realize the goals of the project.

Applicants should submit their resume with a link to their portfolio. Resumes should be sent to emily@groovejones.com.
